

# MALIBU

— LUXURY SLIDING PATIO & SWINGING FRENCH DOORS —

# MALIBU

**THE BEAUTY OF YOUR HOME** Malibu Sliding Patio and Swinging French Doors enhance the beauty of your home, both inside and out. Each door is custom built with high quality design and craftsmanship, so you'll enjoy lasting elegance.

**THE BENEFITS OF VINYL** Our vinyl is engineered and formulated to exceed the demands of moderate to hot climate zones (West Coast). Our vinyl is made from a proprietary blend of resin and UV stabilizers maximizing performance that will last a lifetime. The vinyl also acts as an efficient thermal barrier that helps reduce your home's heating and cooling costs.

**THE PAYBACK OF ENERGY SAVINGS** Energy efficient vinyl is just the beginning. Combined with Anlin's proprietary INFINITE PLUS High Performance Glazing System and up to triple-strength safety tempered glass, Malibu Sliding and French Swinging Doors greatly increase the comfort of your home while reducing energy costs.

**THE CONFIDENCE OF SECURITY** With Malibu Doors, heightened security is standard. With multi-point locking systems and metal reinforced sash panels, Anlin's Malibu Doors passed stringent California Forced Entry (CFE) resistance tests.

## FULL LIFETIME WARRANTY

Malibu Doors are guaranteed for as long as you own your home. Your investment is protected by Anlin's FULL LIFETIME WARRANTY, including non-prorated coverage and glass breakage. We stand behind our products. And you'll have it in writing.

# Breathe Easier with MICROBAN® Protection

MICROBAN® antimicrobial treatment inhibits the growth of stain and odor-causing bacteria, mold and mildew.

## Triple-Fin Weatherstrip with MICROBAN®

Malibu Doors include an upgraded weatherstrip with three fins, plush fiber and backing ALL infused with MICROBAN® antimicrobial treatment.

## BetterVue® Screens with MICROBAN®

Standard

BetterVue®

Anlin's BetterVue® door screens allow a much clearer view than standard 18 x 16 screens. At the same time, they increase airflow and protect better against insects. The screen mesh is infused with MICROBAN® that won't wash or wear away.

Anlin's locking door screens are made with heavy-duty extruded frames and include a flush-mounted, self-latching handle.

## INFINITE<sup>e</sup> PLUS<sup>TM</sup> HIGH PERFORMANCE GLAZING SYSTEM

It's the science behind maximum energy efficiency and comfort.  
And **ONLY** Anlin offers it.

### Anlin's Exclusive High Performance Glazing System

Anlin's proprietary INFINITE PLUS High Performance Glazing System offers superior energy efficiency and comfort year-round, and with lower energy costs.

#### It includes:

##### Platinum Elite Warm Edge Spacer:

Our silicone memory foam spacer with three insulating chambers is the industry's most technologically advanced and efficient spacer on the market.

##### Triple-layer silver metal coating:

This Infinite coating reflects outside heat in sunny weather, keeps heat from escaping home in cold weather, and blocks 95% of harmful UV rays.

##### PLUS Easy-Clean coating:

Applied to the exterior glass, PLUS coating harnesses the sun's UV rays and causes dirt and other organic materials on the glass to decompose. So when it rains, the decomposed dirt no longer clings to the glass, easily rinsing away. Your doors will be easier to clean and stay cleaner longer.

# Vinyl Sliding Patio Doors

Available in Standard (2 1/2" wide rails) and French-style (4 1/2" wide rails), Malibu Sliding Patio Doors are built for beauty and comfort that last a lifetime. And with metal-reinforced sashes and forced-entry resistant locking systems, they also keep your home secure. Choose the style, configuration, color, and upgrade options that are right for your home.

**Sliding & Fixed Panel**  
Sample Configurations

### Standard Features

- **SIZES** Height: from 6' to 8'  
Width: from 5' to 12'
- All corners are thermal fusion welded for strength and a watertight seal.
- Heavy duty 1 1/2" oversized tandem rollers with sealed ball bearings for consistently quiet and smooth operation.
- Multi-point locking system: passed stringent California Forced Entry (CFE) resistance test
- Metal-reinforced sashes
- Ergonomic, contoured handle
- Heavy duty extruded screen frame with metal reinforced corners offer a lifetime of use with easy operation.
- Metal flush mount self-latching screen door handle with lock (heavy-duty latch and keeper)

## THERMAL PERFORMANCE DATA

DOOR STYLE	UV Block <sup>1</sup>	Visible Light Transmittance <sup>2</sup>	Total Unit U-Factor <sup>3</sup>	Solar Heat Gain Coeff. <sup>4</sup>
Malibu Patio Door [Standard Double-Pane Clear]	42%	82%	0.46	0.61
Malibu Patio Door [INFINIT <sup>®</sup> PLUS <sup>®</sup> ]	95%	66%	0.32	0.22
Malibu Patio Door [INFINIT <sup>®</sup> PLUS <sup>®</sup> with Argon]	95%	66%	0.29	0.22
Malibu Patio Door French-style [Standard Double-Pane Clear]	42%	82%	0.45	0.52
Malibu Patio Door French-style [INFINIT <sup>®</sup> PLUS <sup>®</sup> ]	95%	66%	0.33	0.19
Malibu Patio Door French-style [INFINIT <sup>®</sup> PLUS <sup>®</sup> with Argon]	95%	66%	0.30	0.19
Malibu In or Out Swing Door [Standard Double-Pane Clear]	42%	82%	0.45	0.48
Malibu In or Out Swing Door [INFINIT <sup>®</sup> PLUS <sup>®</sup> ]	95%	66%	0.34	0.18
Malibu In or Out Swing Door [INFINIT <sup>®</sup> PLUS <sup>®</sup> with Argon]	95%	66%	0.31	0.18

Malibu Vinyl Doors with INFINIT<sup>®</sup> PLUS<sup>®</sup> HP Glazing System leads the industry in thermal performance.

<sup>1</sup> Ultraviolet (UV) light block calculations performed using Lawrence Berkeley Laboratories Window 4.1 program. Percentages indicate amount of UV transmittance blocked from the interior using a 3/4" glazing unit.

<sup>2</sup> Visible light transmittance indicates the amount of outside light reaching the interior as calculated using center of glass. Higher percentages mean more outside light reaches interior.

<sup>3</sup> U-factor represents the amount of heat transfer as measured in accordance with NFRC 100-2001, calculation uses total window unit, and assumes 3/4" glazing with a 1/2" airspace. Lower is better.

<sup>4</sup> Solar heat gain coefficient (SHGC) measures the amount of solar radiation entering the building. As measured per NFRC 200-2001 with the Window 4.1 and Frame 4.1 modeling programs. Lower is better.

### CERTIFIED TO MEET OR EXCEED EXPECTATIONS

All Anlin windows and doors are AAMA and NFRC certified, and ENERGY STAR<sup>®</sup> qualified with:

### Anlin Window Systems
