

COMMUNITY CONVALESCENT HOSPITAL

Community Convalescent Hospital of La Mesa

8665 La Mesa Blvd.

La Mesa, California 91941

When we decided to replace the windows at the Community Convalescent Hospital of La Mesa we knew we had a difficult task on our hands. I had received a few quotes from other window replacement companies, but when I called Michal from B.M. Windows I knew just from the phone conversation that I had found the professional I was looking for.

I explained that the windows needed to be replaced in our convalescent hospital and Michal agreed to visit our facility himself to keep costs to a minimum. Michal provided us with numerous pieces of advice regarding window and glass options, and color choices. I was very impressed by his professionalism and diligence. After Michal provided us with a quote, we realized that B.M. Windows was offering to do the job at cost, just to help our senior community. We decided to hire B.M. Windows to do the job.

The entire process was very easy. The B.M. Windows installers were professional, caring, and neat. And they cooperated flawlessly with our nursing staff to minimize disruption to our patients. They really went the extra mile to make sure they did not disturb our senior patients. The windows are great quality; they improve the look of the building, reduce the heat coming from sunlight and they reduce the street noise tremendously. The difference between the old aluminum windows and new vinyl windows is amazing.

We do everything we can to provide our patients with the best possible care, and the windows from B.M. Windows are an enormous improvement to our facility. I would like to thank Michal and his crew of installers for the great job they performed.

Sincerely,

Carl De La Mena

Vice President - Community Convalescent Hospital of La Mesa
